

VOLUME 49 · SUBJECT INDEX

Heb 1, Heb 2=Heberden Papers, supplements 1 and 2

Adrenal insufficiency, childhood, chorea, and antiphospholipid antibodies: correspondence 421

Adult

onset and juvenile onset Still's disease, comparison of long term evolution 283

respiratory distress syndrome, associated with primary meningococcal arthritis: case report 634

Agalactosyl IgG and acute rheumatoid fever 383

Allopurinol in inhibition of xanthine oxidase: correspondence 422

Aluminium, possible pathogenic role in dialysis associated arthropathy: leader 573

Aminopropylidene diphosphate, antenatal administration: correspondence 955

Amyloidosis in rheumatic diseases: correspondence 337

Anaemia in rheumatoid arthritis

role of iron, vitamin B₁₂, and folic acid deficiency, and erythropoietin responsiveness 93: correspondence 956

serum erythropoietin concentrations and red cell distribution width in relation to iron status 349

Anaerobic bacteria in rheumatoid arthritis: correspondence 568

ANCA test, its clinical relevance: leader 741

negative, in Behçet's disease: correspondence 817

Angiotensin converting enzyme release from rheumatoid arthritis monocytes, 172

Ankle surgery and rheumatoid arthritis 837 *Heb 2*

Ankylosing spondylitis

and bronchoalveolar lavage: rapid report 325

destructive spine lesions: correspondence 422

and inflammatory bowel disease associated with cutaneous vasculitis, glomerulonephritis, and circulating IgA immune complexes: case report 638

polyclonal B cell activation 396

relation between chest expansion, pulmonary function and exercise tolerance 921

and systemic lupus erythematosus occurring together: case report 323

upper lobe fibrobullos disease and spinal pseudoarthrosis, simultaneous presentation: case report 728

Antibacterial antibodies and autoantibodies, from both sides now: leader 961

Antibodies, measurement in mixed connective tissue disease 391

Anticardiolipin antibodies

infective endocarditis, and rheumatoid factor 107

negative occlusive vascular retinopathy in systemic lupus erythematosus: correspondence 133

neuropsychiatric lupus erythematosus, and cerebral infarctions 114

persistence, in systemic lupus erythematosus, clinical importance 387

in systemic lupus erythematosus, isotype distribution, 100 patients 109

Anticoagulants, lupus, in systemic lupus erythematosus, prevalence and clinical associations 986

Anti-collagen antibodies, meaning: review article 62

Anti-double-stranded DNA antibodies, fibronectin effect on *Crithidia luciliae* test for 705

Antigen induced arthritis, beige (Chediak-Higashi) mice 607

Antihistone antibodies, levels of IgG, IgA, and IgM isotypes and systemic lupus erythematosus, correlation between clinical features 524

Antineutrophil cytoplasmic antibodies *see* ANCA

Antinuclear antibodies

and diagnosis of systemic lupus erythematosus in acute intermittent porphyria 246

in vivo, of the skin, diagnostic significance and association with selective antinuclear antibodies, 163

low incidence, in dermatomyositis with malignancy: correspondence 422

positive, and Raynaud's phenomenon in a malignancy: case report 935

Antiperinuclear factor, association with seronegative rheumatoid arthritis 15

Antiphospholipid antibodies

childhood adrenal insufficiency, and chorea: correspondence 421

and occlusive ocular vascular disease: correspondence 283

Antiphospholipid syndrome

and recurrent cerebral infarction, effect of intravenous gammaglobulin in systemic lupus erythematosus: case report 939

13 year old girl, and renal artery thrombosis and hypertension: case report, 184

Antireticulin antibody in systemic sclerosis, 177

Antiribosomal P proteins, two cases of familial lupus and recurrent psychosis: case report 779

Antirheumatic drugs in elderly: conference report 1022

Anti-Ro antibodies and myocarditis or cardiac conduction defects, possible association between, in adults with systemic lupus erythematosus 627

Apatite associated destructive arthropathy, septic arthritis complicating: case report 1005

Arthritis

in acute febrile neutrophilic dermatosis (Sweet's syndrome): correspondence 135

brucella, study of 96 cases, Kuwait 994

caused by subchondral avascular necrosis: review article 412

and epidemiology, Europe: leader, 139

in human T lymphotropic virus type I (HTLV-I) carrier: case report 718

infectious, caused by *Propionibacterium acnes*, new case: correspondence 653

neurogenic influences: review article 649

and osteoporosis: leader 276

Arthropathy

apatite associated destructive, septic arthritis complicating: case report 1005

destructive, after successful renal transplantation: correspondence 66

toxic shock syndrome associated: correspondence 66

Articular cartilage

cyclic loading influence on nutrition 536

defects of the knee, correlation between magnetic resonance imaging and gross pathology 672

Ascaris infection and Churg-Strauss vasculitis: case report 320

Ashkenazi Jewish family, hereditary chondrocalcinosis 528

Athletes, elite female, bone mineral density: review article 1013

Aurothioglucose causing thrombocytopenia: case report 798

Autoantibodies

and antibacterial antibodies, from both sides now: leader 961

in juvenile chronic arthritis and their immediate family relatives 968

Autoantigens, recombinant 445 *Heb 1*

Autoimmune disease

nodal generalised osteoarthritis as: hypothesis 1017

silicone induced, remission after explantation of breast augmentation: case report 937

Avascular necrosis of femoral head presenting as trochanteric bursitis: case report 730

Axillary vein thrombosis in adolescent onset systemic sclerosis: case report 557

Azathioprine

induced fever, chills, rash, and hepatotoxicity in rheumatoid arthritis 25

and warts: correspondence 269

Bacteroides fragilis, causing haematogenous clavicular osteomyelitis: correspondence 653

Baker's cyst, ruptured, posterior compartment syndrome following: case report 944

Behçet's disease

and negative antineutrophil cytoplasmic antibodies: correspondence 817,

genitoreticular trichomonas invasion as (co)-factor: correspondence 423

recurrent papilloedema and early onset optic atrophy: case report 410

Beige (Chediak-Higashi) mice, antigen induced arthritis 607

Blastocystis hominis causing infective arthritis: case report, 192

Blood sampling for osteocalcin determinations: correspondence 133

Bone

marrow, T cell subsets in, in rheumatoid arthritis 168

mineral density levels, elite female athletes: review article 1013

density in systemic lupus erythematosus, effect of oral corticosteroids 624

pain as presenting manifestation of secondary syphilis: case report 641

scintigraphy role in early diagnosis of discitis 932

Breast

augmentation, silicone, causing autoimmune disease, remission after removal: case report 937

giant cell arteritis (temporal arteritis) affecting, two cases and review: case report 1001

British dispatch: comments on treatment, radiology, osteoporosis and education, 194

Brittle bones disease, mutations in type I procollagen genes 440 *Heb 1*

Bronchoalveolar lavage in ankylosing spondylitis: rapid report 325

Brown's syndrome, unusual ocular complication of rheumatoid arthritis: case report, 188

Brucella arthritis, study of 96 cases, Kuwait 994

Brucellosis, osteoarticular, in children 896

C4B null allele and DQw7 in rheumatoid arthritis and Felty's syndrome 976

Calcium

cytosolic free, role in neutrophil superoxide production 296

homeostasis, extracellular, influence of indomethacin 125

Capsaicin effects on metabolism of rheumatoid arthritis synovial cells in vitro 598: correspondence 653

- Captopril, antiproteinuric effect in lupus nephritis and intractable nephrotic syndrome: case report 725
- Cardiac
conduction defects or myocarditis, and anti-Ro antibodies, possible association between, adults with systemic lupus erythematosus 627
tamponade in juvenile chronic arthritis, two cases and review: case report 549: correspondence 1025
- Cardiomyopathy, associated with gout and neurological abnormalities in young man: case report 942
- Cerebral infarction
anticardiolipin antibodies, and neuropsychiatric lupus erythematosus 114
